Cooks Gauntlets

7186

Coopers oven gloves will protect your hands against dry contact heat up to 350°C, which is almost double that of a regular oven glove.

- The oven gloves are soft, flexible, lightweight and strong for comfortable use in the kitchen
- 30% Kevlar, 70% Nomex, with poly/cotton lining
- The gloves are machine washable at 40°C
- Can be dried using a tumble dryer
- Never use bleach on the oven gloves
- Not suitable as protection from steam or hot liquid
- Always keep the gloves clean and free from grease, any build up can affect the gloves performance
