

Stone, Patio & Decking Cleaner

builds an invisible repelling
barrier that offers long-term
surface protection

500ml e

Stone, Patio & Decking Cleaner is a highly advanced, highly concentrated, industrial strength, heavy duty cleaning and protection formulation. It contains a powerful biocide that will help to prevent the re-growth of moss, mould or mildew for up to a year. Stone & Decking Cleaner will remove a wide variety of soiling, including: animal fouling, algae, mould, mildew, grease, weathering, and general grime.

Directions: Dilute 9:1 for everyday soiling, for more severe soiling reduce the dilution rate or use neat, stubborn stains may require agitating with a stiff brush. Dead growth, moss etc. will need to be manually removed. If necessary rinse with clean water and allow to dry. For full protection, spray the area once clean with diluted cleaner and allow to dry.

IMPORTANT:

Do not use around fish ponds or aquariums.

Do not allow the cleaner or run off to enter any drains or watercourses.

Wash hands and exposed skin after use.

Avoid contact with skin and eyes. In the event of contact, wash out with plenty of cold fresh water.

Wear suitable protective clothing, gloves and eye protection.

Irritating to eyes and skin.

Do not use for medical or hygiene purposes and keep this product away from children and animals.

Not to be taken internally.

Do not mix this product with other preparations.

Store unused cleaner only in the original container. Dispose of container and material according to local authority guidelines.

Before using always try a small, inconspicuous test area and only proceed when satisfied.
