

Batteries

3x AA batteries – not included

OPERATION:

The Bark Stopper has an internal microphone which picks up sound and activates the unit. It emits an unpleasant ultrasonic sound and strong flashing when a dog starts barking. When the barking stops, the device stops too. The ultrasonic sound does not affect humans.

Ultrasonic speaker

LED light

SETTINGS:

Bark Stopper has three working modes:

Position 0 – Off

Position 1 – Ultrasonic

Position 2 – Flashing

Position 3 – Ultrasonic and flashing

0: OFF

1: ULTRASONIC

2: FLASHING

3: ULTRASONIC + FLASHING

INSTALLATION:

- The bark stopper has to face the area which is to be protected.
- It can either be fixed on the spike stake into the ground, hung at the hang hole or stood up on a flat surface.
