REFRESHING TOWEL "SHAKE 'N FRESH"

Refresh yourself during exercise or hot weather with this towel. Its innovative material offers an icicle effect and keeps the cold. Even with hot water, it stays cool! An ideal accessory for athletes, sunny days on the beach or summer walks. Repeat as many times as you want to reactivate the freshness effect. Without chemicals.

INSTRUCTION MANUAL:

1. Wet the towel.
2. Wring out the towel.
3. Shake the towel in the air few times
4. The refreshing effect is activated.

The plastic container keeps the towel humid. Store the dry towel in its container after use.

Attention, do not store it more than 8 hours in the container if the towel is humid (it might get mouldy).

CARE INSTRUCTIONS: Machine-washable at 40°C, let air dry.
