

Deluxe Wood Effect LED Floor Lamp J031 wo Instructions for Use

Please read and retain these instructions for future reference

v003: 06/03/21

Before you begin:

- Inspect lamp before assembly. Some wire connections have been made at the factory and the lamp is ready for assembly.
- Remove all packing materials from the lamp.
- To prevent bad connections, avoid pulling wiring connections when removing contents from package or during installation.
- Lay out all the parts on a flat surface.

Assembly Instructions:

To prevent damage to the pole, please follow the steps below:

1. Take the FLEX POLE and feed the POWER CORD through the UPPER POLE.
2. Screw the UPPER POLE clockwise into the FLEX POLE. (Be careful not to pinch the wires.)
3. Feed the POWER CORD through the MIDDLE POLE and screw MIDDLE POLE clockwise into the UPPER POLE. (Be careful not to pinch the wires.)
4. Feed the POWER CORD through the LOWER POLE and screw LOWER POLE clockwise into the MIDDLE POLE. (Be careful not to pinch the wires.)
5. Connect the two ends of the POWER CORD by pressing the LOCK CONNECTORS into place.
6. Carefully feed the excess POWER CORD into the LOWER POLE. (DO NOT CUT OR SHORTEN THE POWER CORD).
7. Turn and tighten the metal connecting COLLAR onto the base.
8. Take out the screw and insert the LOWER POLE into the COLLAR.
9. Check direction of the lamp and line up the screw holes and use a screwdriver to tighten the screw.

10. Be careful not to pinch the cord between any metal parts.
11. Plug the DC plug into the socket on the base.
12. Plug the ADAPTER into outlet and now the lamp is ready for use.

The LEDs are specially formulated to simulate the characteristics of natural sunlight. They are non-replaceable and should give up to 50,000 hours of use.

50,000 hours

365 days a year

Assume 4 hours use summer time 7pm – 11pm for 182.5 days every day = 730 hours

Assume 6 hours use winter time 5pm – 11pm for 182.5 days every day = 1095 hours

Total annual hours: 1825/50,000 = 27 years

Operation Instructions:

The LED Floor Lamp has three different colour settings,

- 6,000K = full spectrum light mode
- 4,500K = soft white mode
- 3,000k = warm-white mode

1. Touch the power button to turn on the lamp to the 6,000K colour temperature level which is the full spectrum light mode.
2. Touching and holding the power button again will gradually dim the light to its lowest level, then gradually brighten to its highest level and dim back to its lowest. When the dimming feature reaches your desired brightness, release the button.
3. Touching the power button again will turn off the lamp.
4. If the power button is touched again within 5 seconds the lamp will enter the 4,500K colour temperature level which is the soft-white mode. Touching and holding the power button again will gradually dim the 4,500K light mode.
5. Touching the power button again will turn off the lamp.
6. If the power button is touched again within 5 seconds, the lamp will enter the 3,000K temperature mode which is the warm-white level. Touching and holding the power button again will gradually dim the 3,000K light colour.
7. If the power button is quickly touched repeatedly without holding, the light will rotate between the different colour modes.
8. If the lamp is turned on after 5 seconds, the light will go back to the last colour.

TECHNICAL INFORMATION:

LED Class: III
Power supply: DC14V, 0.75A
Power output: 12W

Caution:

Do not tilt the lamp head to the left or right of the base to avoid tipping.
