Tips for Optional Performance

1. Your LED lamp offers instant-on, full power, so no need to let it “warm up”.
2. Gooseneck lets you keep lamp head below eye level so light shines on your work, not in your eyes.
3. The LED Daylight Table Lamp is a TASK lamp, designed for reading, sewing and handiwork. It is not designed to light-up an entire room or for ambient light.
4. TAP for on/off. TOUCH and HOLD for Dimming
5. Bonus: LED Daylight Table Lamp light is so close to sunlight that it makes a good grow light.

BULB LIFE EXPECTANCY:

- Integrated LED bulbs last up to 50,000 hours and do not require replacement.
- No user serviceable parts inside.

The LEDs are specially formulated to simulate the characteristics of natural sunlight. They are non-replaceable and should give up to 50,000 hours of use.

Total annual hours: $1825/50,000 = 27$ years
