

RFID Aluminium Card Flip Wallet

- **COMPATIBILITY:** Credit card holder includes a metal case with an eject button that holds up to 6 cards, two pockets in the wallet that can be used as other cards (driver's license, insurance card, etc.), and a storage for small cash or banknotes
- **POP-UP FUNCTION:** Unlike other credit card wallets, the wallet has a convenient pop-up function, and all cards gradually slide out, making it easy for you to find the card you want
- **RFID function** will protect your cards from being scanned
