

Product size:

63.5 cm x3.5cm

- This syphon pump can transfer over 4 litres of gas, oil, water or other non-corrosive liquid every minute
- Perfect for filling up or emptying your petrol lawn mower so no fuel is wasted, clearing up unexpected leaks & small floods, filling up windscreen wiper fluid, draining fish tanks and many other things!
- Powered by 2xD batteries (not included)

FOR USE:

1. Insert batteries noting their positive and negative polarity.
2. Immerse the suction end of the pump into the liquid to be transferred.
3. Insert the discharge hose in the vessel you wish to fill.
4. Push button and hold to fill. Be careful to turn off before over-filling.

Caution

1. Do not run dry. Only switch on after submerging the bottom of the pump into fluid being pumped.
2. Do not use with thinner or solvents.
3. Before pumping flammable liquids, extinguish heater and allow to cool.
4. Do not turn upside down after use.
5. Do not use near sources of heat or fire and do not smoke when using this syphon pump with flammable liquids/fuel.

BATTERIES

- Keep batteries away from children and pets.
- Do not mix used and new batteries.
- Install batteries in accordance with its polarity symbols.
- Remove the batteries if left for long periods.
- Never dispose of batteries in a fire.
- Battery disposal, spent or expired batteries must be properly disposed of and recycled in compliance with local regulations. For detailed information, contact your local authority.
- Follow the battery manufacturer's safety, usage, and disposal instructions.

DISPOSAL

- Dispose of all packaging, paper, cartons, plastic and plastic bags in accordance with your local recycling regulations.
- At the end of the product's lifespan please dispose of it at an authorised household WEEE waste recycling centre.
