

Brass Hose Connectors Set of 4

Thank you for purchasing our Brass Hose Connectors Set.

Each Set includes:

1 x 4" Brass Adjustable Nozzle

1 x ½" Brass Hose Connector

1 x 1/2" Brass Waterstop Hose Connector

1 x ¾" Brass Tap Adaptor

Plastic Hose connectors are always cracking or developing leaks as they are simply not designed to last. With our brass precision-engineered connectors, you will not need to replace your hose connectors any time soon.

They are so tough they can be trodden on, even driven over without breaking. They are far less susceptible to wear and tear.
