

Material: Hand Carved Resin

Size: 20.5cm x 23.8cm x 49.7cm

Weight: 1.6KGS

Battery: 2x AA 600mAh 1.2V

Solar panel: 2V 40ma

20.5cm x 23.8cm x 49.7cm

Non-replaceable LED lights

How the solar light works

During the day, the solar panel converts solar power into the rechargeable battery.

At night, the light turns on automatically by the stored energy. How long the light lasts depends on its location, weather conditions and seasonal lighting availability.

Choosing the right location

An outdoor location with direct sunshine and where the solar panel of your light can receive at least six hours of sunshine each day is an ideal location for a solar light.

Shady locations will influence the batteries charge and may shorten the working time of the light at night time. The solar light should not be placed near lighting such as street light, which may cause the light to turn off.

INSTRUCTIONS FOR USE

Gently remove the statue from the packing and position it in a sunny location with the solar panel facing the sun.

Press the switch to the "ON" position to turn the light function on and to charge the battery. Press the switch to the "OFF" position to turn the light function off.

For the initial charge, allow the solar panel to charge the battery for a full day for best results. When darkness falls, the solar light will illuminate for several hours (depending on charge).

Keep the solar panel clean and free of debris for best lighting results - wipe with a clean soft cloth.

BATTERIES

- Keep batteries away from children and pets.
- Do not mix used and new batteries.
- Remove the batteries if left for long periods.
- Never dispose of batteries in a fire.
- Battery disposal, spent or expired batteries must be properly disposed of and recycled in compliance with local regulations. For detailed information, contact your local authority.
- Follow the battery manufacturer's safety, usage, and disposal instructions.

DISPOSAL

- Dispose of all packaging, paper, cartons, plastic and plastic bags in accordance with your local recycling regulations.
- At the end of the product's lifespan please dispose of it at an authorised household WEEE waste recycling centre.
