Function Operation:

1. Press and hold down the "Power" button to turn the device on or off. When the power is turned on, sound/music can be selected by pressing "K1" to "K6".
When music plays, press the "Vol down" button to reduce the volume, and press the "Vol up" button to increase the volume. Press the "Timer button" to set the timing shutdown, or to turn off timing. When you set the timer shutdown, the clock starts immediately and automatically shuts down when it reaches the set time. When the device can be powered by USB, using "USB DC 5V" port.

2. Timer selection:

Timing time selection (15min, 30min, 60min, infinite loop)

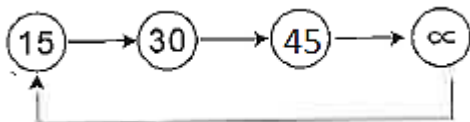

Timer 15min: indicator D1 light on; sound is stopped and light turns off after 15min.

Timer 30min: indicator D2 light on; sound is stopped and light turns off after 30min.

Timer 45min: indicator D3 light on; sound is stopped and light turns off after 45min.

Infinite Loop: all indicator lights are off

3. Each time the timer play button is pressed, a timing can be chosen and the corresponding indicator light comes on. The circling sequence is as below:

When selection is made, the indicator light turns on and the time function is started.

4. The default setting when the power is on is "infinite loop".

5. Music button (K1 – K6 buttons):

Each button controls to play unique music. Press once to play the current sound repeatedly until it is deselected.

Pressing another music choice button will change the selection. The current music cannot be stopped by pressing the same button again.
