

**Dimensions:**

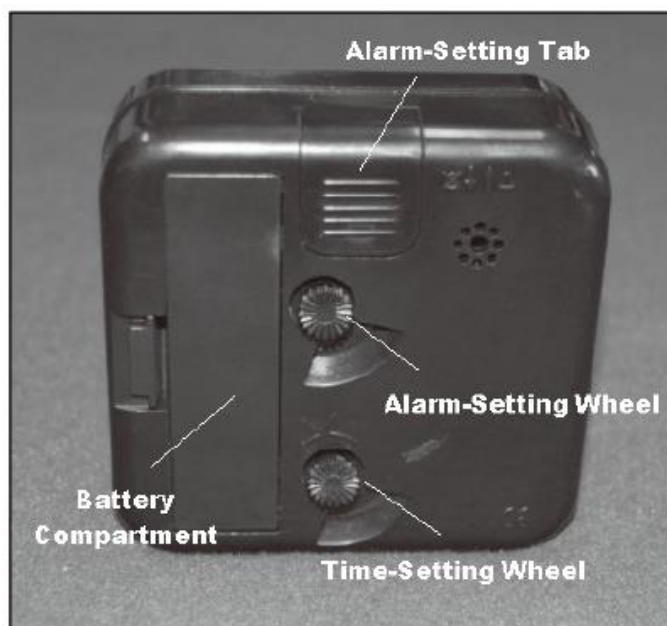

7cm x7cm x3.5cm

Material:

ABS

INSTRUCTIONS FOR USE:

1. The battery compartment is located on the back of the clock on the left hand side. Remove the cover by pressing on the tab on one side and lifting it open. Insert 1x AA battery (not included) with (+/-) polarity as indicated inside then replace cover.
2. Control knobs and switches are located on the back of the clock next to the battery compartment. Set the correct time by rotating the time-setting wheel (black knob at the bottom) to the desired time. Rotate the knob clockwise to set the correct time.
3. To set the alarm, rotate the alarm-setting wheel (black knob in the middle) to the desired time then slide the tab at the top upwards to the ON position. A beeping alarm will sound when the selected time is reached. To turn the alarm sound off, slide the tab at the top downwards to the OFF position.
4. Stand the clock upright on a flat surface. The clock will make a ticking sound whilst it is running and temperature will be displayed in degrees Celsius on the LCD screen.
