GAME SETUP

The game is set up by placing 32 marbles in 32 dents, leaving the centre dent empty.

HOW TO PLAY

To remove a marble, you have to move one marble over another marble, landing in an empty dent. Marbles can move up, down, left or right but never diagonally.

Movement Rules

- At the start, place each marble in a dent, except the centre dent.
- Move one marble at a time by jumping over another marble to land in an empty dent.
- You can jump over as many marbles as you can in one move (rather like draughts).
- Keep jumping until there is one marble left on the board.

- The last marble must end up in the centre dent.
- The game is over when no more jumps are possible.
