**INSTRUCTIONS FOR USE:**

Use the supplied USB cable to charge the lighter.  
Charge from a computers USB port or any USB port with exit DC 5±0.5V, 0.3-1A.

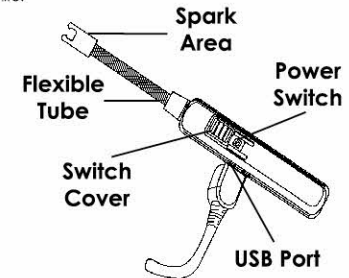

The lighter fully charges in 2 hours. The light turns blue while charging and the lighter is fully charged when the light goes out.

The fully charged lighter can be used up to 60 times. Slide up the switch cover and press and hold the power switch to activate the lighter.

Do not charge for more than 5 hours.

When the battery is low the spark from the lighter will only last a very short time. Recharge the battery immediately in order to prolong the batteries life.

The battery operates through a chemical reaction, after an extended period of disuse, we recommend you charge it every 6 months to preserve its battery life.

**NOTICE:**

For safety the lighter will auto shut down after 10 seconds if the button is held continuously.

Release the button and press again to relight it.

Do not use the lighter whilst it is USB recharging.

Do not expose to direct sunlight or temperatures above 49°C (120F)

Do not leave a fully charged battery connected to a power supply. Disconnect when fully charged.

**SPECIFICATION:**

Rechargeable battery: 1 built in lithium 220mAh - 3.7V  
Battery charge time: Approx 1.5 - 2 hours.  
Made in China.

**WARNING:**

Keep away from children.

If overheating occurs, stop using the lighter and allow it to cool down fully before using it again.

Do not touch the spark area when the lighter is in use, it can cause serious burns and injury.

**IMPORTANT** - If your lighter is fully charged and fails to spark please clean the spark contacts with a dry smooth cloth to remove any dirt or wax.

Do not insert objects in the opening parts of the device.

Do not expose to fire.

Do not charge using any unsuitable power supply. Do not try to disassemble the device.

Fragile product - be careful not to drop or damage the device.

Read the instructions fully before use.
