Unpack the components carefully. Please check all parts have been removed from the packaging.

Parts

Operating instructions :

- A. Plug in the receiver. A "Ding Dong" sounds and the LED Indicator 1 will flash about 4 seconds to show the output socket is energised.
- B. The CR2032 3V battery is pre-fitted in the transmitter. Simply pull the red plastic tab until it is fully removed.
If needed, to open the bell transmitter, use a flat head screwdriver that fits the hole and gently push in the tap. The top part will then open. Figure 1 shows the inside of the bell transmitter you can see at the bottom where the battery goes. There is a correct way and wrong way. Inside the battery compartment shown in the photograph there is + and – make sure you put the battery in the correct way. Make sure you put the lid back on the correct way shown in Figure 2. Same again clip one of the tabs in first then very gently use the same screwdriver to push the tab in.
- C. **Pairing** - press the Volume button on the receiver for 5 seconds until the music sound stops and the LED Indicator 1 does not flash. Then press the Bell Button on the transmitter. After hearing 2 buzzes the receiver and transmitter are paired.
- D. Now it is time to find out what tune you would like by pressing the button either side of the volume button.
- E. When the bell button on the transmitter is pressed the receiver will play the selected music and the LED Indicator 1 flashes at the same time.
- F. If the transmitter did not pair with the receiver within 20 seconds, two buzzing sounds will be heard meaning the learning code is cancelled automatically. Please repeat step C to pair.
- G. **Tune selection:** Total 52 songs are available. Press Tune selection button to select a tune
- H. **Volume adjust:** The volume can be adjusted to 5 different levels. Press the Volume button to select the appropriate volume.

If you do decide to move the plug please reset.
