Output: 6V DC 200 mA

Dimensions

110 (fully extended) x29 x32cm

The sweeper is designed for use on wood, ceramic, tile and other smooth surfaces.

It can be used on very short hairless carpet but with limited functionality and battery life.

Not suitable for carpets with long fibres as carpet fibres may interfere with the brush. If this occurs, the sweeper motor will be turned off for protection.

Getting started

- Remove the appliance from the box.
- Remove any packaging from the appliance.
- Place the packaging inside the box and either store or dispose of safely.

In the box

- Swivelling sweeper head
- Lower extension pole with built-in battery
- Mid-section extension pole
- Top extension pole with handle
- Charger
- Cleaning tool
- Instruction manual

Parts

Before first use

- Step 1:** Place the swivelling sweeper head on the floor, ensuring that the handle attachment is facing upwards.
- Step 2:** Connect the lower extension pole with the built-in battery to the handle attachment and charger inlet. Ensure that the locking tab is aligned with the notch in the extension pole.
- Step 3:** Depending upon the length of the pole required, either connect the top section pole with the handle to the lower extension pole or for a longer reach also connect the mid-section extension pole.
- Step 4:** Plug the charger into the charger inlet at the base of the swivelling sweeper handle and plug the plug end into the mains power supply, then switch on. The indicator light will illuminate to indicate that the battery is charging.
- Step 5:** To use the swivelling sweeper, switch off the charger at the mains power supply and remove the charger from the charger inlet. Use the ON/OFF button located at the swivelling sweeper handle base to start the swivelling sweeper.
- Note:** Keep the brushes free of fibres, hairs, and other objects that could impede the proper functioning of the swivelling sweeper. Remove any hairs or fibres if this occurs.

Battery Charging

To maintain the battery's longevity:

The swivelling sweeper does not come charged. Ensure that prior to first use, the swivelling sweeper is charged for approximately 10 hours.

Discharge the battery fully, before recharging again on next use.

Subsequent charges should then only require approximately 5-6 hours.

Do not leave the appliance plugged in to the mains power supply on charge for extended periods of time when not in use as this will decrease the life of the battery.

Care and Maintenance

The dust container must be emptied after each use or when it is full.

To empty the dust container, hold the swivelling sweeper over a bin and pull the dust release lever.

The dust release cover will automatically open.

Gently give the swivelling sweeper a shake to remove excess dust then press the dust cover container cover closed gently until it clicks.

Brush Cleaning Tool

Over time the appliance's cleaning brushes may accumulate fine debris such as hair, thread and other particles. It is recommended to clean the rotating brushes on occasion using the included "Brush Cleaning Tool".

1. Make sure the appliance is turned off before cleaning.
2. Use the cleaning brush tool to cut and remove tangled debris. Simply guide the blade along the shaft of the rotating cleaning brushes.
3. Dispose of debris in the bin.

Troubleshooting

Symptom	Possible cause	Solution
The swivelling sweeper does not charge.	The charger is not connected properly.	Ensure that the charger is correctly fitted to both the charger inlet on the swivelling sweeper and the mains power supply and that the mains power supply is switched on.
The swivelling sweeper does not sweep efficiently.	Hair and fibres have covered the brushes. The dust container is full.	Remove any hair and fibres from the brushes. Empty the dust container.

Storage

To store the swivelling sweeper, push the handle forward until it rests securely in place.

BATTERIES

- Keep batteries away from children and pets.
- Do not mix used and new batteries.
- Remove the batteries if left for long periods.
- Never dispose of batteries in a fire.
- Battery disposal, spent or expired batteries must be properly disposed of and recycled in compliance with local regulations. For detailed information, contact your local authority.

- Follow the battery manufacturer's safety, usage, and disposal instructions.
