- THE CAT IS IN AN ANTIQUE BRONZE BRUSHED FINISH
- MADE OF WEATHER RESISTANT POLYRESIN
- ADDS SOME PLAYFUL FUN TO YOUR GARDEN OR PATIO

Battery: 1 xAA NI-MH

## ASSEMBLY INSTRUCTIONS / INSTRUCTIONS FOR USE:

Unpack the components carefully. Please check all parts have been removed from the packaging.

### Find an ideal Place for the Solar Light.

Place the solar light in an area where it will receive direct sunlight for at least 8 hours per day. The number of hours the light will illuminate is directly proportional to the hours of sunlight it receives. If the light is placed in a shaded area, it will not be able to fully charge and its illumination time will be limited. Do not place the light near other outdoor lighting like porch or streetlights. These may fool the sensor and keep the light from coming on, or cause it to turn off automatically.

**The solar panel is on the back of the cat (see photographs).**

## OPERATION

### FOR FIRST TIME USE:

#### Step 1:

Fully charge the battery before first use. Charge under direct sunlight in the <ON> position for 2 days.

#### Step 2:

Your solar light will automatically turn on once it gets dark.

### CHANGING THE BATTERY

#### Step 1:

Push the switch to the <OFF> position (Figure 1).

#### Step 2:

Remove the screws from the battery cover (Figure 1).

#### Step 3:

Carefully lift the cover to access the battery compartment, ensure not to detach any of the connected wires (Figure 2).

#### Step 4:

Replace the battery with an equivalent new solar rechargeable battery; ensuring the correct polarity is observed (Figure 2).

#### Step 5:

Reassemble the unit by reversing the above procedure.

### TROUBLE SHOOTING TIPS

If your solar light does not come on at dusk despite following all instructions, please try the following steps:

1. Make sure that the solar light is not affected by any other light source.
2. Ensure the solar light does not stand in the shade all day.
3. Check to see if the batteries are installed correctly.
4. If there is a protective film on the solar panel remove it.

### Care and Maintenance Recommendations

1. Clean solar panel with a soft sponge every couple of weeks.
2. Make sure all connectors are still tight and no water getting in.
3. Keep the water clean during the summer keep topping up every 3 or 4 days with clean water.
4. During the winter if you can bring it inside and give a good clean ready for next year.

### BATTERIES

- Keep batteries away from children and pets.
- Do not mix used and new batteries.
- Remove the batteries if left for long periods.
- Never dispose of batteries in a fire.
- Battery disposal, spent or expired batteries must be properly disposed of and recycled in compliance with local regulations. For detailed information, contact your local authority.
- Follow the battery manufacturer's safety, usage, and disposal instructions.

### DISPOSAL

- Coopers of Stortford use recyclable or recycled packaging where possible.
- Please dispose of all packaging, paper, cartons, packaging in accordance with your local recycling regulations.
- Plastics, polybags – Contains the following recyclable plastic.

Code & Symbol	 PS
Type of Plastic	Polystyrene
Commonly used for	Insulation boxes, water cups, protective packaging inserts, take away containers
