- THE CRACKLED GLOBES IN THE CENTRE OF THE FLAMES GIVE OFF A WARMING AND RELAXING GLOW AUTOMATICALLY AT NIGHT
- SUPPLIED AS A PACK OF 2
- WOULD LOOK GREAT LINING PATH, OR AMONGST FLOWER BEDS

ASSEMBLY INSTRUCTIONS / INSTRUCTIONS FOR USE:

Unpack the components carefully. Please check all parts have been removed from the packaging.

To easily insert stakes into the ground, it is recommended to wet the ground first. To avoid damaging garden stakes when inserting into the ground, select a spot in soft, rock-free soil. Insert the base of the stake first then gently insert the rest of the stake into the base. **DO NOT** push directly against the solar cell or the ornament housing containing the actual LED light.

Install the solar product in an area where it can get direct sunlight.

Leave the switch to "ON" position.

Select an outdoor location away from other light sources at night, such as street lights. It may cause the product not to turn on automatically at night.

Duration of light depends on solar product's level of sunlight exposure, geographical locations, weather conditions and the hours of daylight.

*Calls cost 7 pence per minute plus your telephone company's network access charge
