

# Solar Lighthouse

H243 v001: 16/12/20

Please read and retain these instructions for future reference

**GAINSBOROUGH**  
Garden & Wildlife

**ALWAYS POSITION IN DIRECT SUNLIGHT**

## Dimensions:

13 x13 x36.5cm

- TRADITIONAL DESIGN LIGHTHOUSE, POWERED BY SOLAR THE LIGHT EVEN ROTATES TO GIVE A ROTATING BEAM OF LIGHT JUST LIKE THE REAL THING
- MADE FROM WEATHER RESISTANT POLYRESIN
- AUTOMATICALLY TURNS ON AT NIGHT
- A GREAT ADDITION TO YOUR DECKING, PATIO OR GARDEN

Battery: 1x AA rechargeable battery

## ASSEMBLY INSTRUCTIONS / INSTRUCTIONS FOR USE:

Unpack the components carefully. Please check all parts have been removed from the packaging.

### Find an ideal Place for the Solar Light.

Place the solar light in an area where it will receive direct sunlight for at least 8 hours per day. The number of hours the light will illuminate is directly proportional to the hours of sunlight it receives. If the light is placed in a shaded area, it will not be able to fully charge and its illumination time will be limited. Do not place the light near other outdoor lighting like porch or streetlights. These may fool the sensor and keep the light from coming on, or cause it to turn off automatically

### Note:

To increase stability and avoid the lighthouse toppling over in windy weather it could be filled with sand.

\*Calls cost 7 pence per minute plus your telephone company's network access charge

## OPERATION

### FOR FIRST TIME USE:

#### Step 1:

Fully charge the battery before first use. Charge under direct sunlight in the <ON> position for 2 days. The switch is located on the perimeter of the lighthouse top (near the clear lens). See Figure 1. Your solar light will automatically turn on once it gets dark.

## CHANGING THE BATTERY

#### Step 1:

Remove the lighthouse top by turning in a counter clockwise direction until it separates from the lighthouse (Figure 1).

#### Step 2:

Push the switch to the <OFF> position.

#### Step 3:

Remove the battery compartment cover (Figure 2).

#### Step 4:

Carefully remove the old battery (Figure 3).

#### Step 5:

Replace the battery with an equivalent new solar rechargeable battery; ensuring the correct polarity is observed.

#### Step 6:

Reassemble the unit by reversing the above procedure.

## TROUBLE SHOOTING TIPS

If your solar light does not come on at dusk despite following all instructions please try the following steps:

1. Make sure that the solar light is not affected by any other light source.
2. Ensure the solar light does not stand in the shade all day.
3. Check to see if the batteries are installed correctly.
4. If there is a protective film on the solar panel remove it.

## Care and Maintenance Recommendations

1. Clean solar panel with a soft sponge every couple of weeks.
2. Make sure all connectors are still tight and no water getting in.
3. During the winter if you can bring it inside and give a good clean ready for next year.

## BATTERIES

- Keep batteries away from children and pets.
- Do not mix used and new batteries.
- Remove the batteries if left for long periods.
- Never dispose of batteries in a fire.

# Solar Lighthouse H243 Instructions for Use

Please read and retain these instructions for future reference

v001: 16/12/20
