- **SHE HOLDS A SOLAR POWERED LANTERN IN HER HAND THAT GENTLY ILLUMINATES AT DUSK (DISCREET SOLAR PANEL ON HER BACK)**

Battery

1/3AAA 100MAH

ASSEMBLY INSTRUCTIONS / INSTRUCTIONS FOR USE:

Unpack the components carefully. Please check all parts have been removed from the packaging.

Find an ideal Place for the Solar Light.

Place the solar light in an area where it will receive direct sunlight for at least 8 hours per day. The number of hours the light will illuminate is directly proportional to the hours of sunlight it receives. If the light is placed in a shaded area, it will not be able to fully charge and its illumination time will be limited. Do not place the light near other outdoor lighting like porch or streetlights. These may fool the sensor and keep the light from coming on, or cause it to turn off automatically

IMPORTANT

- Fully charge the battery before first use.
- For best results, locate your solar lamp in a position where it can get direct sunlight on the solar panel and generally free from cover and shade.
- Keep your solar lights away from other night-time light sources, such as streetlights.
- Make sure the solar panels are not covered by dust, snow and debris. Clean it with a soft damp cloth or paper towel periodically. Avoid the use of abrasive cleaning agents.
- Use only rechargeable batteries for your solar lights. Replace with a new battery of the same size each year for optimum performance.

OPERATION

FOR FIRST TIME USE:

Step 1:

Fully charge the battery before first use. Charge under direct sunlight in the <ON> position for 2 days.

*Calls cost 7 pence per minute plus your telephone company's network access charge

The Enterprise Department
Head Office: 11 Bridge Street
Bishop's Stortford, CM23 2JU
Tel: 0844 482 4400*
Fax: 01279 756 595
www.coopersofstortford.co.uk

Step 2:

Your solar light will automatically turn on once it gets dark.

CHANGING THE BATTERY

Step 1:

Push the switch to the <OFF> position.

Step 2:

Remove the screws from the battery cover.

Step 3:

Carefully lift the cover to access the battery compartment, ensuring not to detach any of the connected wires

Step 4:

Replace the battery with an equivalent new solar rechargeable battery; ensuring the correct polarity is observed

Step 5:

Reassemble the unit by reversing the above procedure.

Care and Maintenance Recommendations

1. Clean solar panel with a soft sponge every couple of weeks.
2. Make sure all connectors are still tight and no water getting in.
3. During the winter if you can bring it inside and give a good clean ready for next year.

TROUBLE SHOOTING TIPS

If your solar light does not come on at dusk despite following all instructions please try the following steps:

1. Make sure that the solar light is not affected by any other light source.
2. Ensure the solar light does not stand in the shade all day.
3. Check to see if the batteries are installed correctly.
4. If there is a protective film on the solar panel remove it.

BATTERIES

- Keep batteries away from children and pets.
- Do not mix used and new batteries.
- Remove the batteries if left for long periods.
- Never dispose of batteries in a fire.
- Battery disposal, spent or expired batteries must be properly disposed of and recycled in compliance with local regulations. For detailed information, contact your local authority.
- Follow the battery manufacturer's safety, usage, and disposal instructions.

DISPOSAL

- Coopers of Stortford use recyclable or recycled packaging where possible.
- Please dispose of all packaging, paper, cartons, packaging in accordance with your local recycling regulations.
- Plastics, polybags – Contains the following recyclable plastic.

Code & Symbol	
Type of Plastic	Polystyrene
