- Charging Time (in constant sunlight) –10-12 hours
- Lighting time at night 6-8 hours after charging during daytime.

## ASSEMBLY INSTRUCTIONS / INSTRUCTIONS FOR USE:

Unpack the components carefully. Please check all parts have been removed from the packaging.

### Find an ideal Place for the Solar Light.

Place the solar light in an area where it will receive direct sunlight for at least 8 hours per day. The number of hours the light will illuminate is directly proportional to the hours of sunlight it receives. If the light is placed in a shaded area, it will not be able to fully charge and its illumination time will be limited. Do not place the light near other outdoor lighting like porch or streetlights. These may fool the sensor and keep the light from coming on, or cause it to turn off automatically

ON/OFF Switch, switch to ON for charging

Solar panel/battery compartment

\*Calls cost 7 pence per minute plus your telephone company's network access charge

### Care and Maintenance Recommendations

1. Clean solar panel with a soft sponge every couple of weeks.
2. Make sure all connectors are still tight and no water getting in.
3. During the winter if you can bring it inside and give a good clean ready for next year.

### BATTERIES

- Keep batteries away from children and pets.
- Do not mix used and new batteries.
- Remove the batteries if left for long periods.
- Never dispose of batteries in a fire.
- Battery disposal, spent or expired batteries must be properly disposed of and recycled in compliance with local regulations. For detailed information, contact your local authority.
- Follow the battery manufacturer's safety, usage, and disposal instructions.

### DISPOSAL

- Coopers of Stortford use recyclable or recycled packaging where possible.
- Please dispose of all packaging, paper, cartons, packaging in accordance with your local recycling regulations.
- Plastics, polybags – Contains the following recyclable plastic.

|                   |  |
|-------------------|--|
| Code & Symbol     |    |
| Type of Plastic   | Polypropylene  |
| Commonly used for | Microwaveable food containers, yoghurt pots, butter tubs, disposable plates and cups   |
| Notes             | Commonly recycled and collected from household recycling bins (packaging tape itself not recyclable but does not interfere with cardboard) |

- At the end of the product's lifespan please check with your local council authorised household waste recycling centre for disposal.
