## **ASSEMBLY INSTRUCTIONS / INSTRUCTIONS FOR USE:**

Unpack the components carefully. Please check all parts have been removed from the packaging.

## Find an ideal Place for the Solar Light.

Place the solar light in an area where it will receive direct sunlight for at least 8 hours per day. The number of hours the light will illuminate is directly proportional to the hours of sunlight it receives. If the light is placed in a shaded area, it will not be able to fully charge and its illumination time will be limited. Do not place the light near other outdoor lighting like porch or streetlights. These may fool the sensor and keep the light from coming on, or cause it to turn off automatically

### **USE:**

- 1. Press On/Off button to operate.
- 2. Press On/Off button to turn light on, then place into direct sunlight for 12 hours to charge battery.
- 3. The light will automatically turn off in bright light and turn on in dim light.

## **REPLACE BATTERIES:**

- 1. Remove screw from battery compartment lid
- Remove battery compartment lid.
- 3. Remove expired batteries and discard properly
- 4. Clean the battery contacts and also those of the device prior to battery installation.
