--	--	--

IMPORTANT SAFETY INSTRUCTIONS:

1. Read the instructions. All uses guidelines must be read before start device.
2. Keep the instructions for future use.
3. Attention, use and security guidelines must be respected.
4. The device must not be used near water or be put in contact with moisture.
5. Make sure has no liquid is spilled on device and device openings.
6. Move device carefully, avoid shocks.
7. Do not block the breakdown of the device outputs.
8. Do not place the device near from a heat source (e.g. radiator). Do not expose it to the Sun.
9. Plug the device as indicate on this information form.
10. This device has a connection with overload protection (security device) decision-making. If the replacement of decision-making is required, please you send has an experienced or the device manufacturer technician.
11. For cleaning the device, please follow the recommendations of the notice.
12. The sector cord should be unplugged a long period of use.
13. Device shall be repaired by a qualified person when:
 - a. the power cord is damaged,
 - b. objects have fallen into the apparatus or a liquid has been spilled into device,
 - c. device was exposes to the rain,
 - d. device does not work correctly without notable exterior change,
 - e. the unit is broken.
14. The user shall not try to maintain device beyond that which is described in this information form. The guarantee would negate.
15. The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on apparatus.
16. The mains plug is used as disconnect device. The mains plug of apparatus should not be obstructed OR should be easily accessed during intended use. To be completely disconnect the power input, the mains plug of apparatus shall be disconnected from the mains.
17. Ensure a minimum distance of 8 cm around the apparatus for sufficient ventilation.

*Calls cost 7 pence per minute plus your telephone company's network access charge

BATTERIES

- Keep batteries away from children and pets.
- Do not mix used and new batteries.
- Remove the batteries if left for long periods.
- Never dispose of batteries in a fire.
- Battery disposal, spent or expired batteries must be properly disposed of and recycled in compliance with local regulations. For detailed information, contact your local authority.
- Follow the battery manufacturer's safety, usage, and disposal instructions.

NOTE: Due to ERP stage two requirements and to protect the environment, the unit will switch to standby mode automatically if no music is playing after 15 minutes.

PLUG WIRING (UK & IRELAND)

This appliance is fitted with a BS 1363 13-amp plug. If you have to replace the fuse, only those that are ASTA or BSI approved to BS1362 and with a rated current of 3-amperes should be used. If there is a fuse cover fitted, this cover must be re-fitted after changing the fuse. If the fuse cover is lost or damaged the plug must not be used. Spare fuse holders and fuses are available from electrical outlets. If the socket outlets in your home or office are not suitable for this product's plug, the plug must be removed and disposed of safely. Attempts to insert the plug into the wrong socket is likely to cause electric hazard. A replacement plug should be wired according to the following instructions:

The cable

A mains electricity cable contains two or three inner wires. Each has a core of copper and an outer layer of flexible plastic. This product is earthed; the wires in the cord set are colour coded in the following way:
