ASSEMBLY INSTRUCTIONS / INSTRUCTIONS FOR USE:

Unpack the components carefully. Please check all parts have been removed from the packaging.

For best cooking results, follow the below tips:

- Allow food to rest at room temperature for about ten minutes before cooking.
- Preheat the pan and oil carefully – do not allow the pan to overheat without food.
- Use a high setting for boiling and reducing liquids.
- Use a medium high setting for frying.
- Use a low setting for simmering, making sauces and warming food.
- Caution, the pan may be hot, please use oven gloves if necessary.

Tools

Only use wooden, nylon, silicone or plastic utensils which will protect the non-stick finish. Do not use any metal utensils or sharp objects that might damage the non-stick coating.

Cleaning

- Do not use abrasive pads, cleaners or scourers for cleaning. We recommend washing the pans with warm soapy water using a sponge or soft bristle brush.
- Allow the pans to cool down completely before cleaning. Never put cold water into a hot pan or immerse the hot pan into cold water as this may lead to warping.
- The pans are dishwasher safe but due to aggressive cleaning agents in the dishwasher tablets, we recommend cleaning by hand in hot soapy water to maintain the quality of the coating.

Copper King Straining Lid Saucepan 16cm k052 Instructions for Use

Please read and retain these instructions for future reference

v001: 03/11/21

- Never let cookware boil dry or use on high heat. If this occurs, do not attempt to move or remove the cookware from the cooking surface until it has completely cooled.
- Keep out of reach of children.
- Do not attempt to make repairs or use damaged cookware.

DISPOSAL

- Coopers of Stortford use recyclable or recycled packaging where possible.
- Please dispose of all packaging, paper, cartons, packaging in accordance with your local recycling regulations.
- Plastics, polybags – this is made from the following recyclable plastic.

Code & Symbol	
Type of Plastic	Polypropylene
Commonly used for	Microwaveable food containers, yoghurt pots, butter tubs, disposable plates and cups
Notes	Commonly recycled and collected from household recycling bins (packaging tape itself not recyclable but does not interfere with cardboard)

- At the end of the product's lifespan please check with your local council authorised household waste recycling centre for disposal.

*Calls cost 7 pence per minute plus your telephone company's network access charge
