Long Handle Silicone Massage Bath Brush K106 Instructions for Use

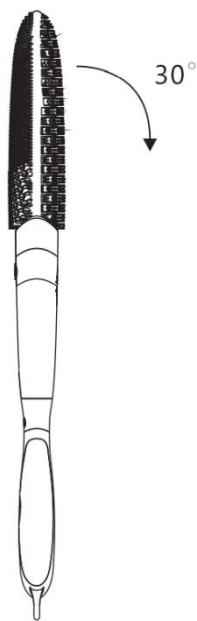

Please read and retain these instructions for future reference

v001: 30/07/21

BATH BRUSH FUNCTION

Cleans the skin and allows the skin to absorb more skin care nutrition and moisturization.

Brush head design

SOFT BENDING 30 DEGREES

Silicon bath brushes have a super-large silicon cleaning surface. The flexible silicon can be bent by 30 degree head and feel as smooth as baby skin.

Wave multi-effect massage area gives a soothing massage, which can weaken the effect of false wrinkles in the neck and improve absorption of skin care products.

PRECAUTIONS FOR USE

1. Please read this manual before using the Massage Bath Brush. This brush is only suitable for the purposes specified in this manual.
2. If you suspect or determine that the product is damaged, do not use it.
3. Insert batteries before use. Store in a dry place.
4. When not in use, be sure to press the power button to turn off the power and store it.
5. For hygiene reasons, it is not recommended to share the cleansing device with others.
6. To prevent skin damage, it is recommended that the brush is used for a maximum of 10 minutes.
7. Do not place the product in direct sunlight to avoid contact with heat. Do not expose to boiling water, otherwise it may cause deformation.
8. Do not immerse the instrument in water, this may cause a malfunction.
9. Do not use on patients suffering from dermatitis. If you suffer from allergic skin conditions, please consult your GP before using. If you experience skin irritation during use, stop using the brush and consult your GP.
10. Do not press on brush excessively to avoid irritation to the skin. If you suffer from skin allergies or irritations please adjust to low intensity.
