ASSEMBLY INSTRUCTIONS / INSTRUCTIONS FOR USE:

Unpack the components carefully. Please check all parts have been removed from the packaging.

Connect the top part with the spike by twisting them together.

Before using first time

Allow lamp to charge for at least 8 hours in full sunlight with the ON/OFF switch in the ON position. The ON/OFF switch is located under the solar panel. Once the batteries are fully charged, set the ON/OFF switch to ON. If the lamp does not turn on after dark refer to Maintenance section.

NOTE: In order to verify that the button is correctly in the "ON" position, cover the solar panel with your hand and light should turn "ON" automatically.

Find an ideal Place for the Solar Light.

Place the solar light in an area where it will receive direct sunlight for at least 8 hours per day. The number of hours the light will illuminate is directly proportional to the hours of sunlight it receives. If the light is placed in a shaded area, it will not be able to fully charge and its illumination time will be limited. Do not place the light near other outdoor lighting like porch or streetlights. These may fool the sensor and keep the light from coming on, or cause it to turn off automatically

Instructions for Use

v001: 11/10/2

To easily insert stakes into the ground, it is recommended to wet the ground first. To avoid damaging garden stakes when inserting into the ground, select a spot in soft, rock-free soil. Insert the base of the stake first then gently insert the rest of the stake into the base. DO NOT push directly against the solar cell or the ornament housing containing the actual LED light.

Care and Maintenance Recommendations

- 1. Clean solar panel with a soft sponge every couple of weeks.
- 2. Make sure all connectors are still tight and no water getting in.

BATTERIES

- Keep batteries away from children and pets.
- Do not mix used and new batteries.
- Remove the batteries if left for long periods.
- Never dispose of batteries in a fire.
- Battery disposal, spent or expired batteries must be properly disposed of and recycled in compliance with local regulations. For detailed information, contact your local authority.
- Follow the battery manufacturer's safety, usage, and disposal instructions.

DISPOSAL

- Coopers of Stortford use recyclable or recycled packaging where possible.
- Please dispose of all packaging, paper, cartons, packaging in accordance with your local recycling regulations.

Plastics, polybags – this is made from the following recyclable plastic.

Code & Symbol	25\ PP
Type of Plastic	Polypropylene
Commonly used for	Microwaveable food containers, yoghurt pots, butter tubs, disposable plates and cups
Notes	Commonly recycled and collected from household recycling bins (packaging tape itself not recyclable but does not interfere with cardboard)

 At the end of the product's lifespan please check with your local council authorised household waste recycling centre for disposal.
