Please read and retain these instructions for future reference

GAINSBOROUGH
Garden & Wildlife

Dimensions
34 x 34 x4cm

- VERDIGRIS INTRICATE GARDEN CLOCK
- KEY HOLE HOOK ON THE BACK SO YOU CAN
- AFFIX TO A FENCE OR WALL (FIXINGS NOT INCLUDED)
- REQUIRED 1.5V (AA OR EQUIVALENT)
- BATTERY. NOT INCLUDED.

ASSEMBLY INSTRUCTIONS / INSTRUCTIONS FOR USE:

Occasionally during transit, the hands on the clock may be found to have come loose away from their fixing on the spindle. This is a design feature to protect the mechanism and is easily rectified by simply pushing first the hour hand back onto its spindle and then the minute hand.

Should this be necessary, once the hands have been pushed back onto the spindle they should be manually moved to read 12 o'clock before following the next procedure below.

Remove the rear battery compartment cover, (if fitted) from the clock movement by pulling it away from the casing.

Fit a 1.5V (AA or equivalent) battery into the battery compartment taking care to observe the correct polarity.

Adjust the time by turning the wheel on the movement in the required direction until the current time is displayed.

The rear cover, (if fitted) may now be replaced by pushing back cover the movement
