

Compost Maker

Uses highly developed micro-organisms & natural enzymes to increase the decomposition of garden waste into a great quality compost rich in quality & weed free.

How to use:

1. Shake well before use.
2. Unscrew cap on the measuring chamber & remove the seal.
3. Squeeze bottle gently until 10ml of Compost Maker has entered the measuring chamber.
4. Mix with 2 gallons of water & add to the fresh waste. Make sure the waste is completely saturated.
5. 10ml will treat 1 large bin bag of waste.
6. Once treated leave for 6 weeks.

Health & Safety:

Contains cellulase, lipase enzyme. May produce an allergic reaction. Use in a well ventilated area. Avoid breathing product spray. Wash hands thoroughly after handling. Store in a dry place. Store in a closed container. Keep out of reach of children.

Safe for use, when used as directed in and around fish, birds, pets & plant life.

500ml
