- Zip on cover creates a mini Greenhouse

Capacity approx. 26.5L
Always place on level surfaces

ASSEMBLY INSTRUCTIONS / INSTRUCTIONS FOR USE:

Unpack the components carefully. Please check all parts have been removed from the packaging.

This plastic planter stand allows you to grow delicious vegetables and beautiful flowers in any area. You no longer need a large garden or field to grow vegetables, flowers or vines.

This product can be used even in the smallest spaces. It is very easy to assemble and it has a self-watering system. In other words, there is no easier way to grow it today. After assembling the product, put in the soil, plants and fertilizer, and then add the water.

Parts

(C)▲

(D)▲

(F)▲

(G)▲

- 1x planter (A)
- 1x separator (B)
- 4x legs (C)
- 4x leg pads (D)
- 12x corner connectors (E)
- 12x 36 cm tubes (F)
- 12x 32 cm tubes (G)
- 4x leg plugs (H)
- 4x wheels (I)

Cover included (not shown)

Assembly instructions

Attach leg plugs (H) to the tops of the legs (c). Attach leg pads (D) to the bottom of the legs (C).

Turn the planter (A) bottom down and click the wheels into place.
Planter can be moved around on wheels or legs are fitted to keep in position.

Insert the legs (C) into the bottom of the planter. Use a small hammer to fit in place.

Turn over assembly to stand on its legs and insert the separator (B) into the planter (A).

Assemble tubes as shown pushing down the verticals (G-32cm tubes). Fit corner connectors (E) and push in the horizontal tubes (F-36cm tubes).

Assembly overview

Position the cover over the framework and fix with ties.
Zip up on either side of the middle panel to close. Unzip and roll up middle panel and use tie to hold up and open.

User Instructions

- Position Planter in a sunny position.
- Fill the planter with compost to about 2/3 capacity.
- Make a hole sufficient for the root ball of the plant and firm in the compost around the planter.
- Water the planter and ensure compost is moist.
- Keep compost moist.
- Carefully place a cane in the compost to support the plant as it grows.

DISPOSAL

- Coopers of Stortford use recyclable or recycled packaging where possible.
- Please dispose of all packaging, paper, cartons, packaging in accordance with your local recycling regulations.
- Plastics, polybags – this is made from the following recyclable plastic.

Code & Symbol	
Type of Plastic	Polypropylene
Commonly used for	Microwaveable food containers, yoghurt pots, butter tubs, disposable plates and cups
Notes	Commonly recycled and collected from household recycling bins (packaging tape itself not recyclable but does not interfere with cardboard)

- At the end of the product's lifespan please check with your local council authorised household waste recycling centre for disposal.
