Set 3 Solar Sunflower Stakes

K327 v001: 18/10/21

Please read and retain these instructions for future reference

ALWAYS POSITION IN DIRECT SUNLIGHT

Dimensions

(H) 70 (including stake) x (W) 15 x (D) 15cm **Material**: Silk, plastic, stainless steel Battery 1x AA 1.2v 600Mah, Ni-MH, Rechargeable

- PRETTY SUNFLOWER STAKES THAT ARE PERFECT FOR ADDING SOME WARM SUMMER GLOW TO YOUR GARDEN
- SOLAR POWERED SO THEY ILLUMINATE AUTOMATICALLY AT DUSK
- EACH SUNFLOWER HAS 7 WARM WHITE LEDS INSIDE SO THEY REALLY COME ALIVE AT NIGHT (LEDs not replaceable)
- STAKE ALONG BORDERS AND PATHS OR AMONGST FLOWER BEDS FOR

ASSEMBLY INSTRUCTIONS / INSTRUCTIONS FOR USE:

Unpack the components carefully. Please check all parts have been removed from the packaging.

BEFORE FIRST USE: Remove the protective film from the solar panel.

CHARGING AND OPERATION:

- 1. There is an "on/off" switch at the back of the solar pane case. Push the switch to "on" position. Then position the light in a sunny location. Charge the solar product by placing it under direct sunlight for at least 8 hours.
- 2. The light will work automatically. It will charge under direct sunlight during the day time and illuminate at night.

NOTE: In order to test the lights simply cover the solar panel with your hand and the light should turn on automatically.

Find an ideal Place for the Solar Light.

Place the solar light in an area where it will receive direct sunlight for at least 8 hours per day. The number of hours the light will illuminate is directly proportional to the hours of sunlight it receives. If the light is placed in a shaded area, it will not be able to fully charge and its illumination time will be limited. Do not place the light near other outdoor lighting like porch or streetlights. These may fool the sensor and keep the light from coming on, or cause it to turn off automatically

To easily insert stakes into the ground, it is recommended to wet the ground first. To avoid damaging garden stakes when inserting into the ground, select a spot in soft, rock-free soil. Insert the base of the stake first then gently insert the rest of the stake into the base. DO NOT push directly against the solar cell or the ornament housing containing the actual LED light.

Battery replacement:

The Enterprise Department Head Office: 11 Bridge Street Bishop's Stortford, CM23 2JU Tel: 0844 482 4400* Fax: 01279 756 595 www.coopersofstortford.co.uk

Set 3 Solar Sunflower Stakes K327

Instructions for Use

Please read and retain these instructions for future reference

v001: 18/10/2

Step1: Unscrew the battery compartment cover by using a Phillips head screwdriver (not included).

Step2: Remove the exhausted battery and install 1x new AA rechargeable battery according to the +/polarity as beside image. Open the compartment carefully and ensure that wire inside the battery terminals
is not damaged.

Step3: Replace battery compartment cover, screw it back into position and make sure is properly sealed.

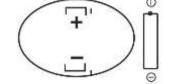

Step4: Charge battery for at least 8 hours in direct sunlight.

Care and Maintenance Recommendations

- 1. Clean solar panel with a soft sponge every couple of weeks.
- 2. Make sure all connectors are still tight and no water getting in.
- 3. Make sure the switch is set to "ON" position.
- 4. If solar product does not light up after it has been used for around 8 12 months, replace the rechargeable battery as it may be weak or worn out. (Battery 1x AA 1.2v 600Mah, Ni-MH, Rechargeable– Same equivalent type as recommended must be used).
- 5. Battery replacement:

Step1: Unscrew the battery compartment cover by using a Phillips head screwdriver (not included) .

Step2: Remove the exhausted battery and install 1x new AA rechargeable battery according to the +/- polarity as image. Open the compartment carefully and ensure that wire inside the battery terminals is not damaged.

Step3: Replace battery compartment cover, screw it back into position and make sure is properly sealed.

Step4: Charge battery in direct sunlight for at least 8 hours.
