**GAINSBOROUGH**  
Garden & Wildlife

ALWAYS POSITION IN DIRECT SUNLIGHT

### Dimensions

(H) 9.5 x (W) 8.5 x (D) 7.6

- COLOURFUL SET OF 8 SOLAR BUTTERFLIES
- 2 IN PURPLE, 2 IN ORANGE, 2 IN YELLOW AND 2 IN BLUE
- EACH BUTTERFLY HAS A CLIP AND SOLAR PANEL SO YOU CAN CLIP ANYWHERE YOU LIKE, FROM TREE BRANCHES, TRELIS', HEDGES, PLANTS ETC SO IN THE DAY THEY ADD SOME SUMMER COLOUR AND AT NIGHT THE WHITE LED INSIDE EACH WILL AUTOMATICALLY ILLUMINATE FOR A PRETTY NIGHTTIME GLOW (LED not replaceable)
- SCATTER THEM AROUND YOUR GARDEN

Battery: 1 x 1.2V 40MAh Ni-MH button cell (incl.)

### ASSEMBLY INSTRUCTIONS / INSTRUCTIONS FOR USE:

Unpack the components carefully. Please check all parts have been removed from the packaging.

#### Before using first time

Remove the clear plastic film from the surface of the solar panel (if present).

Allow lamp to charge for at least 8 hours in full sunlight with the ON/OFF switch in the ON position. The ON/OFF switch is located on the underside of the solar panel. Once the batteries are fully charged, leave the ON/OFF switch to ON. If the light does not turn on after dark refer to Maintenance section.

NOTE: In order to verify that the button is correctly in the "ON" position, cover the solar panel with your hand and light should turn "ON" automatically.

#### Find an ideal Place for the Solar Light.

Place the solar light in an area where it will receive direct sunlight for at least 8 hours per day. The number of hours the light will illuminate is directly proportional to the hours of sunlight it receives. If the light is placed in a shaded area, it will not be able to fully charge and its illumination time will be limited. Do not place the light near other outdoor lighting like porch or streetlights. These may fool the sensor and keep the light from coming on, or cause it to turn off automatically. Clip the lights onto objects within the location.

\*Calls cost 7 pence per minute plus your telephone company's network access charge

## Care and Maintenance Recommendations

1. Clean solar panel with a soft sponge every couple of weeks.
2. Make sure all connectors are still tight and no water getting in.

## BATTERIES

- Keep batteries away from children and pets.
- Do not mix used and new batteries.
- Remove the batteries if left for long periods.
- Never dispose of batteries in a fire.
- Battery disposal, spent or expired batteries must be properly disposed of and recycled in compliance with local regulations. For detailed information, contact your local authority.
- Follow the battery manufacturer's safety, usage, and disposal instructions.

## DISPOSAL

- Coopers of Stortford use recyclable or recycled packaging where possible.
- Please dispose of all packaging, paper, cartons, packaging in accordance with your local recycling regulations.
- Plastics, polybags – Contains the following recyclable plastic.

At the end of the product's lifespan please check with your local council authorised household waste recycling centre for disposal.

Code & Symbol	 PP	 PS
Type of Plastic	Polypropylene	Polystyrene
Commonly used for	Microwaveable food containers, yoghurt pots, butter tubs, disposable plates and cups	Insulation boxes, water cups, protective packaging inserts, take away containers
Notes	Commonly recycled and collected from household recycling bins (packaging tape itself not recyclable but does not interfere with cardboard)	Not commonly recycled but waste management centres will recycle it.
