

Set of 4 Flexible Driver Bit Holder

Thank you for purchasing our Set of 4 Flexible Driver Bit Holder with great flexibility to bend, twist and straight even in the narrowest of spaces.

We hope you are happy with your purchase.

Made of high quality carbon steel which is practical and durable to use. The flexible shield protects your hands while the internal shaft rotates freely.

Compatible for use with both ordinary hand drills and electric drills.

Use:

- Select the bit holder you wish to use and attach this to the tool of your choosing as shown in the diagram below.
- Attach the bit (bits not included) to the opposite end of the driver bit holder and bend as necessary to fit in to the space.
