SPRAY & LEAVE

POWERFUL OUTDOOR FORMULA

- READY-TO-USE FORMULA
- REMOVES MOULD AND ALGAE FROM ALL EXTERIOR SURFACES
- NO SCRUBBING REQUIRED

5 litres e

SPEAR & JACKSON

This product is designed to clean mould, algae and everyday dirt away from the affected areas and to destroy the spores which are produced by algae. This will help lengthen the time in which the algae reforms. The formula is designed to work with the outdoor elements, including wind and rain, to gradually wash away the contamination over a number of months – and can continue working for up to a year, depending on the extent of contamination.

Directions for Use:

Before treatment: Prepare surfaces to treat by eliminating large deposits: Scrape the thick mosses before applying the product. It is preferable that surfaces are protected from rain within 12 hours before the product's application. The curative effect is observed in 1 week. In case of high infestation, renew the treatment. Do not apply the product when ambient temperature is lower than 5°C. Do not use if rain is expected within the next few hours and apply to DRY SURFACES ONLY. Ideally, choose an overcast day (not wet) to apply the product, so that it is less likely to evaporate.

- The product is ready to use and should be applied using the sprayer attached to this container.
- Thoroughly soak the affected areas and simply leave it to work.
- In severely affected areas, you may apply a second treatment after 1 - 2 months.

Precautions:

*WASH HANDS AND EXPOSED SKIN before meals and after use.
*KEEP IN A SAFE PLACE.

*DO NOT CONTAMINATE FOODSTUFFS, EATING UTENSILS OR FOOD CONTACT SURFACES.

*This material and its container must be disposed of in a safe way.

*KEEP AWAY FROM TREATED SURFACES UNTIL DRY.

Keep out of the reach of children. Wear suitable protective clothing and gloves. Keep in original containers, tightly closed, in a safe place. Ensure adequate ventilation when applying.

Ingredients

Contains amongst other ingredients: <5% cationic surfactants

STATUTORY CONDITIONS OF APPROVAL RELATING TO USE. FOR USE ONLY AS SURFACE BIOCIDES.

1L for 3.0m² for the product for normal infestation,
1L for 6.66m² for light infestation

Application method: TRIGGER SPRAY, SPRAY, WATERING CAN, BATTERY OPERATED SPRAYER, LANCE SPRAYER.

Users must comply in full with all their legal responsibilities under the Control of Pesticides Regulations 1986 (as amended), including complying with all Conditions of Approval.

To avoid risks to man and the environment, comply with the instructions for use.

READ ALL PRECAUTIONS BEFORE USE. HSE No.9986

Safety:

**Causes skin irritation.
Causes serious eye damage.
Harmful to aquatic life with long lasting effects.**

Keep out of reach of children.
Avoid release to the environment.
