  - WEATHER RESISTANT
  - IN STRIKING BLUE AND PINK COLOURS
  - INTEGRAL SOLAR PANEL ON THE STAKE OF EACH BUTTERFLY
- Battery: 1x AAA Ni-MH 300mAh 1.2V (per stake)

### ASSEMBLY INSTRUCTIONS / INSTRUCTIONS FOR USE:

Unpack the components carefully. Please check all parts have been removed from the packaging.

Assemble the parts together as shown in the diagrams.

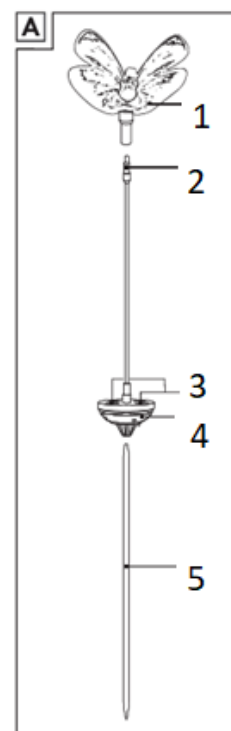

#### Before using first time

Allow lamp to charge for at least 8 hours in full sunlight with the ON/OFF switch in the ON position. The ON/OFF switch is usually located below the solar panel. If the lamp does not turn on after dark refer to Maintenance section.

#### Find an ideal Place for the Solar Light.

Position the stake ensuring the solar panel is not obscured. Place the solar light in an area where it will receive direct sunlight for at least 8 hours per day. The number of hours the light will illuminate is directly proportional to the hours of sunlight it receives. If the light is placed in a shaded area, it will not be able to fully charge and its illumination time will be limited. Do not place the light near other outdoor lighting like porch or streetlights. These may fool the sensor and keep the light from coming on, or cause it to turn off automatically

To easily insert stakes into the ground, it is recommended to wet the ground first. To avoid damaging garden stakes when inserting into the ground, select a spot in soft, rock-free soil. Insert the base of the stake first then gently insert the rest of the stake into the base. DO NOT push directly against the solar cell or the ornament housing containing the actual LED light.

### Care and Maintenance Recommendations

1. Clean solar panel with a soft sponge every couple of weeks.
2. Make sure all connectors are still tight and no water getting in.

## Instructions for Use

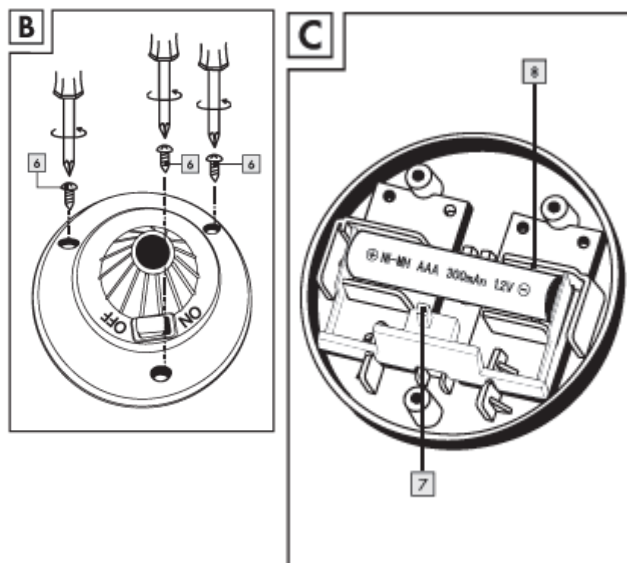

v001: 09/09/22

### Battery replacement:

Step1: Unscrew the battery compartment cover by using a Phillips head screwdriver (not included).  
Step2: Remove the exhausted battery and install 1x AAA Ni-MH 300mAh 1.2V rechargeable battery according to the +/- polarity as beside image. Open the compartment carefully and ensure that welding wires inside the battery terminals are not damaged.  
Step3: Replace battery compartment cover, screw it back into position and make sure is properly sealed.

### BATTERIES

- Keep batteries away from children and pets.
- Do not mix used and new batteries.
- Remove the batteries if left for long periods.
- Never dispose of batteries in a fire.
- Battery disposal, spent or expired batteries must be properly disposed of and recycled in compliance with local regulations. For detailed information, contact your local authority.
- Follow the battery manufacturer's safety, usage, and disposal instructions.

### DISPOSAL

- Coopers of Stortford use recyclable or recycled packaging where possible.
- Please dispose of all packaging, paper, cartons, packaging in accordance with your local recycling regulations.
- At the end of the product's lifespan please check with your local council authorised household waste recycling centre for disposal.
