Safety Information:

- For external use only.
- Do not place directly in the eye
- Do not swallow
- If irritation occurs, discontinue use

Application:

1. Ensure your eyelids are thoroughly clean, dry and free of any make up, serums, oils or moisturisers
2. Close your eye to identify the area where your loose or excess skin is creasing
3. Carefully remove 1 piece of eyelid tape from the backing film of the eyelid with tweezers
4. Spray water on the eyelid tape

5. Close your eye and stick on the eyelid.
Place directly on the crease of the eyelid and gently twist the tweezers to release

6. Press and hold the tape down for several seconds using your fingers to ensure complete bond to the skin , particularly on the edges
7. Adjust the double eyelid with a y-shaped fork position tool and then finally open your eye.

8. The Eyelid tape will create a natural tightening of your eyelid

How to remove:

Put the wet make up pad on eyelid

Clean the eye skin and wipe it clean.
