

## Foldable Lightweight Step Stool

Thank you for purchasing our Foldable Lightweight Step Stool. We hope you will be happy with your purchase.

### **Features:**

Lightweight

Portable- carry handle included

Space saving- folds flat when not in use

Ensure item is completely unfolded and sides are locked in place before using the step stool.

### **To unfold:**

Turn stool upside down and pull the long sides apart. If necessary, place upside down on the floor and push down to fully open. Pull open short hinged sides, ensuring they lock into place. Please be careful not to trap your fingers in the hinge.

### **To fold:**

Unlock the shorter hinged sides by pressing inwards at the top of the stool. The stool will start to fold. Press down on the longer side to fold completely.

### **Warning:**

Max user weight 150kg

Use only on a flat, stable non slip surface

Not to be used in a shower / bath or any other wet surfaces
