Before You Start

- Decide on an appropriate location for your product (see positioning instructions below).
- Remove all packaging and dispose of safely out of the reach of children & animals.
- Check the light set before use for any loose or damaged wiring. If in any doubt do not use.

Positioning Instructions

- 1) Please refer to the cable label affixed to the product to establish its positioning suitability.
- 2) Do not position or place near heaters or any other direct sources of heat.

Please note as due to different sizes, there could be a different amount of tree sections, so please follow the below

- 1) Check that you have all pieces and parts before continuing.
- 2) Attach the bottom tree section to the base of the tree by screwing the section into the base in a clockwise direction.
- 3) Attach the top section of the tree to the bottom section of the tree by pushing them together.

- 4) Next you will see a connector attached to the bottom of the top section & attached to the top of the bottom section, you will need to screw these together, they will only fit one way, so take note of the inside shape of each connector and match up.

You may now plug the tree into the power supply and stand back and admire your efforts.
