

Car Scratch Remover

Thank you for purchasing our Car Scratch Remover. We hope you will be happy with your purchase.

Our Car Scratch Remover is specially formulated to remove minor scratches (not deep cut scratch) for metallic and 2K paintwork. This new technology breakthrough can be also used as a tar remover

Directions:

1. Clean the scratch with a cleaning cloth, keep it dry
2. Shake the bottle well for a few seconds
3. Apply Car Scratch Remover on the place with the scratch, scuff or scrape mark. Use a spongy cloth to help you maneuver through bent areas or spread on large areas
4. Allow it to dry for a few minutes
5. Once it is all dried out, wipe off the excess liquid using a cloth, preferably microfibre
6. After using Car Scratch Remover, wax the area to bring it back to its original shine

Precaution:

1. Store in ventilated and cool place
2. Do not swallow. If swallowed, consult your physician immediately
