

## INSTALLATION

- This heater must be installed in a horizontal position only. It must not be mounted in a vertical position.
- The heater should always be positioned low down on a wall or non flammable surface.
- The heater must not be free standing; it must be securely mounted on the wall.
- It is recommended that the heater is not positioned under shelving but if it is, any shelving must be at least 30cm away to allow air to circulate.
- Do not mount below a socket outlet. Ensure there are no wires or pipes in the wall before fixing.
- Do not cover the heater at any time. Air must be allowed to circulate freely.
- This heater must not be installed in a bathroom, or any area where it can get wet.
- After switching on for the first time, the element may emit a vapour/smell. This is completely normal and should pass in a few minutes.
- This heater is supplied with a guard. It is recommended that the guard is used at all times as the heater gets very hot in use.
- Hold the heater against the wall and mark the position of the fixing holes. Screw the bottom halves of the bracket to the wall. Place the heater on the brackets and affix the top brackets on. Affix the guard to the wall. The fixings supplied with this heater may not be suitable for your wall surface, so you may have to supply a suitable alternative.

## WARNING

- Do not use the heater until securely fixed to the wall and the cover fitted.
- The surface of this heater will get hot. Do not touch.
- Keep away from children.
- The unit is fitted with a thermal fuse which will cut off the power if the unit overheats.
- Do not allow to get wet.
- For indoor use only.
- The plug is fitted with a 5amp fuse. Only replace with a 5amp fuse and never use without a fuse fitted.
- Not for commercial use.
- Not for use in a bathroom or wet room.
- Do not use if the unit, cable or plug is damaged in any way, no user serviceable parts.

## MAINTENANCE

- Ensure the unit is switched off and cold and wipe with a soft damp cloth and finish with a dry cloth.
- Do not use any abrasive cleaners.

## PACKAGING

- Dispose of the packaging at your local recycling centre.
- Dispose of paper and carton separately from plastic bags at your local recycling centre.
- Dispose of the item at the end of its lifespan at your local authorised household waste recycling centre.
