

TRACTION MAT PK.2

8844

Instructions

- Ensure there are no obstructions in front or behind the wheel.
- Always check to ensure handbrake is applied before placing the traction mat in position.
- Place traction mat in front of driving wheel. Ensure the sloped edge is in contact with the tyre and the side marked "THIS SIDE UP" is facing upwards.
- If reversing, follow the above procedure, placing the traction mat behind the driving wheel.
- Depending on conditions it may only be necessary to use one of the traction mats.
- Once in place, drive slowly over the traction mat, do NOT accelerate hard.
- Do NOT use to bridge over a small gap, eg. gully.
- Depending on the surface, it may be necessary to remove any loose material from the area before place the traction mat in position.
- Exercise caution when using on inclines or uneven surfaces.

Packaging

- Dispose of the packaging at your local recycling centre.
- Dispose of paper and carton separately from plastic bags at your local recycling centre.
- Dispose of the item at the end of its lifespan at your local authorised household waste recycling centre.
