

## Reusable Non-Stick Oven Liners

- Made from PTFE coated non-stick fabric
- Each liner measures 40cm x 50cm
- Will withstand temperatures up to 260°C
- Dishwasher safe

## CAUTION

- Your oven liner must be regularly cleaned to prevent the build-up of food and grease.
- Do not exceed a temperature of 260°C / 500°F or gas mark 10. If the liner is heated above 300°C it will release fumes that may potentially cause people nearby to experience flu like symptoms.
- Do not expose the liner directly to naked flames, burners, grill or a heating element.
- Do not use as a cutting board
- Do not fold or crease the oven liner.

**IF THE HEATING ELEMENT IN THE OVEN IS BELOW THE OVEN FLOOR THE LINER SHOULD BE PLACED ON THE LOWER SHELF.**
