

Freestanding 3x Magnifying LED Lamp 9666

Instructions

PARTS

- A. Lower pole
- B. Base
- C. Flexible neck
- D. Lamp head
- E. Upper pole
- F. Stem cable
- G. Mains adapter
- H. Collar
- I. Lock connector
- J. ON/OFF switch
- K. DC plug

ASSEMBLY

1. Take the flexible neck(C) and feed the stem cable(F) through the upper pole(E).
2. Screw the upper pole(E) clockwise into the flexible pole(C). Take care not to pinch the cable.
3. Feed the stem cable(F) through the lower pole(A).
4. Screw the lower pole(A) clockwise into the upper pole(E). Take care not to pinch the cable.
5. Connect the two ends of the cable by press the lock connectors(I) into place.
6. Turn and tighten the metal collar(H) onto the base(B).
7. Carefully feed the excess cable into the lower pole(A). Do not cut or shorten the cable.
8. Take out the screw and insert the lower pole(A) into the metal collar(H).
9. Check direction of the lamp head and line up the screw hole and use a screwdriver to tighten the screw.
10. Connect the DC plugs(K) on the external power cord.
11. Plug adapter into main outlet and turn on the lamp using the ON/OFF switch(J).

USE

- Hold reading material directly parallel to the magnifier lens. If not positioned correctly, the reading material may appear distorted.
- The LEDs are specially formulated to simulate the characteristics of natural sunlight. They are non-replaceable and should give up to 50,000 hours of use.
- Turn off and unplug the light when not in use.

Please read carefully before use and retain for future reference.
