

### **Greena® Lawn Drought Treatment.**

A concentrated preparation of naturally occurring bacteria & bio-degradable wetting agent for the maintenance of hanging baskets, tubs & lawns. Also to be used around the roots of shrubs.

The wetting agent ensures the water soaks into dry soil, penetrating down to the roots & the unique combination of bacteria re-balances the soil, enhances nutrient uptake & improves plant & soil health.

#### **Instructions for use:**

1. Shake well before use.
2. Dilute 25ml into 10 litres of water & sprinkle liberally over the soil.
3. 25ml of diluted product will treat 50 square metres.
4. Treat weekly during drought/dry conditions, fortnightly during normal conditions and monthly during the winter.
5. Store in a cool place and use diluted product within 24 hours.
