

**GAINSBOROUGH**  
Garden & Wildlife

### Product Introduction:

This product is solar-powered decorative fountain. It is made up of highly efficient solar panel and new brushless pump. Safe and easy to use as it has no electric outlet or external battery. It is perfect as a bird bath, fish tank, small pond, garden decoration, water circulation for oxygen, etc.

### Product Specification:

- Solar panel power consumption: 9V/1.8W
- Size of Solar panel: Around 180mm x120mm
- Brushless pump power consumption: 9V 200mA
- Maximum flow/Qmax: 220L/h
- Max Water Height/Hmax: 100cm
- 3m cable for solar panel
- Battery: 7.4V 600mAh

### Product Performance

- Life Time:  $\geq 20000$  Hours.
- Delay:  $\leq 5$  s.
- Working Time: 8:30Am~5:00PM (on a sunny day)
- Delay: When the solar panel is covered, the product continues to work. When the sun shines normally, power is restored to the solar panel.

## Parts

1. 	2. 	3.

7. 	8. 	
2PCS	1PC	

## Assembly instructions

1. Turn the small barrel (5) upside down using the screws (2) and attach and secure the large panel (4).
2. Connect the tubing to the water pump (8) and place in the bottom of the large barrel (6).
3. Place the small barrel with the large panel attached on the top of the large barrel (6). Make sure that the electrical cable is fed out the back and the pipe (7) is fed upwards through the barrels. Secure the barrel in place with screws (2).
4. Screw the pump handle (1) to the base.
5. Place the small panel (3) on the top of the water feature, making sure the tubing is fed upwards through the hole. Secure in place using the screws (2).
6. Connect the tubing (7) to the water pump and screw the water pump into position.
7. Fill the large barrel with water. The water feature is now ready to be plugged into a power source.

## Installation

- Immerse pump completely in the water with the pump's nozzle above the water level. Ensure the pump is fixed firmly on the bottom of the fountain to avoid vibration.
- Plug the jack of pump in the jack of solar panel output.
- Expose the solar panel to sufficient sunlight, ideally facing the sun directly.

## Caution

- Always unplug the pump from the electric outlet before cleaning and handling the fountain.
- Ensure there is enough water in the fountain, especially on sunny days; always keep the pump immersed in water. Use with clean water only. Do not place in other liquids. Never let the pump run dry.
- Do not use the pump in water above 30 °C.
- Prevent the water from running into the electrical outlet down the cord.
- Do not lift, carry or pull the pump by the power cord.
- Do not replace the power cord. Stop using the pump if it sustains damage.
- Change water frequently to keep the water clean to avoid any dirt clogging the pump.
- Be careful to protect the solar panel to avoid any damage.
- Keep the surface of solar panel clean.

## Warnings

- Position the fountain on level ground for maximum results.
- This product is not a toy, please keep away from children.
- The fountain is to be used outdoors but ensure that the plug remains indoors.
- Children should be supervised at all times when near or around this fountain.
- Small children can drown in shallow water.
- Only use the pump that is supplied with this appliance or one of exactly the same specification.

## BATTERIES

- Keep batteries away from children and pets.
- Remove the batteries if left for long periods.
- Never dispose of batteries in a fire.
- Keep batteries away from children and pets.
- Battery disposal, spent or expired batteries must be properly disposed of and recycled in compliance with local regulations. For detailed information, contact your local authority.
- Follow the battery manufacturer's safety, usage, and disposal instructions.

## DISPOSAL

- Dispose of all packaging, paper, cartons, plastic and plastic bags in accordance with your local recycling regulations.
- At the end of the product's lifespan please dispose of it at an authorised household WEEE waste recycling centre.
