

## Setting up

Remove all of the contents from the package.

**Make sure that you remove the black plastic protective pieces on the top of the ladder main frame before installation.**

## Installing the top handrail

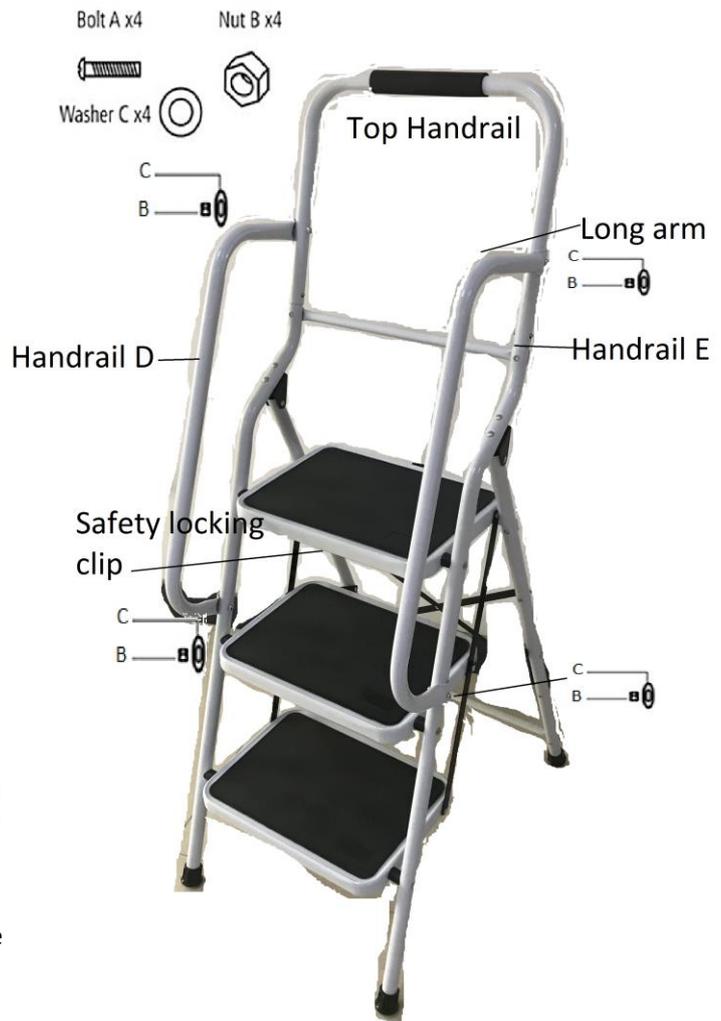

1. Slide the top handrail onto the top of the ladder main frame.
2. Align the top handrail so that the 4 holes of the top handrail match with the 4 buttons of the ladder main frame.
3. While keeping the buttons of the ladder main frame pressed, continue to slide the top handrail until the buttons click into place.

**Complies with EN14183**

## Assembly

- Attach the handrails (D and E) to the ladder using locking nuts, bolts and washers (A, B and C) as shown in the diagram (right).
- Ensure that the long arms of the handrails are at the top and that all nuts and bolts are tightened before use.
- When unfolding the ladder, ensure that the safety locking clip (F) underneath the top step is secured in position.
- To fold down, push down on the black lever to release the safety locking clip (F) before folding.
