

Caution Glass: This item contains glass,

Handle with care.

Technical Details:

Battery: NI-MH 1.2V
200MA AA (replaceable)

Bulbs: LED non
replaceable.

Carefully remove the product from the display packaging taking care not to damage the product.

To activate the solar sensor, use the 'ON/OFF' button located on the top next to the solar panel. Place in desired location. Ensure that the solar panel is placed in direct sunlight for 6-8 hours. The solar lights will automatically turn on at dusk and shut off at dawn. Once you have completely finished with the product, switch the button to the 'OFF' position.

IMPORTANT:

Install the solar product in an area where it can get direct sunlight.

Leave the switch in the "ON" position.

Select an outdoor location away from other light sources at night, such as street lights. It may cause the product not to turn on automatically at night.

Duration of light depends on solar product's level of sunlight exposure, geographical locations, weather conditions and the hours of daylight.

- Do not use if the insulation or bulbs have been damaged, dispose of them safely.
- Do not operate in packaging.
- Do not allow any part to come into contact with excessive heat or naked flame.
- This product is not a toy.
- Keep these lights away from pets and ensure that children are supervised and do not play with them.
