

Bird Table Assembly Instructions (BIR01)

The bird table is received part assembled and requires to be assembled using the kit provided.

Screws – 2 x 100mm screws, 18 x 35mm screws, 6 x 70mm screws, 8 x 50mm screws, 2 x 60mm screws.

Part 1- Base assembly

Parts:

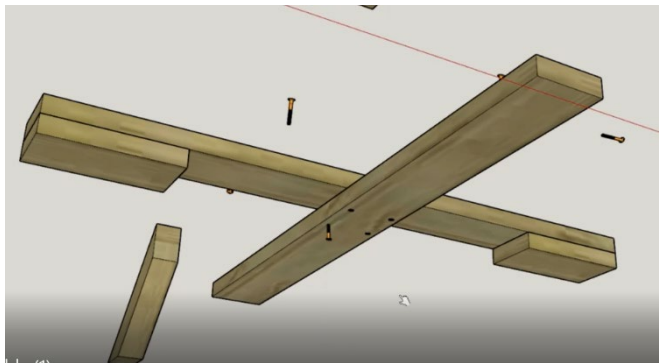

1 x bird house and post.

1 x base piece with foot blocks.

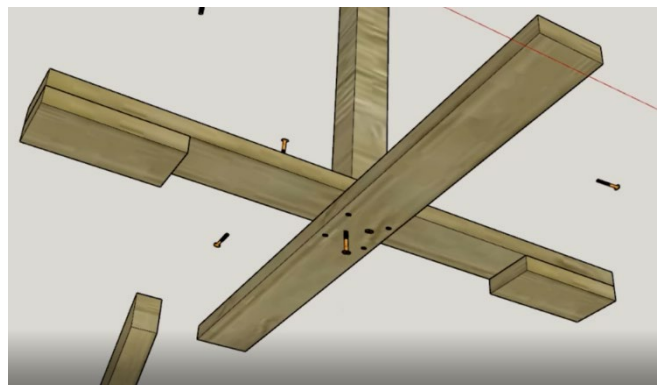

1 x base piece without foot blocks.

4 x angled supports.

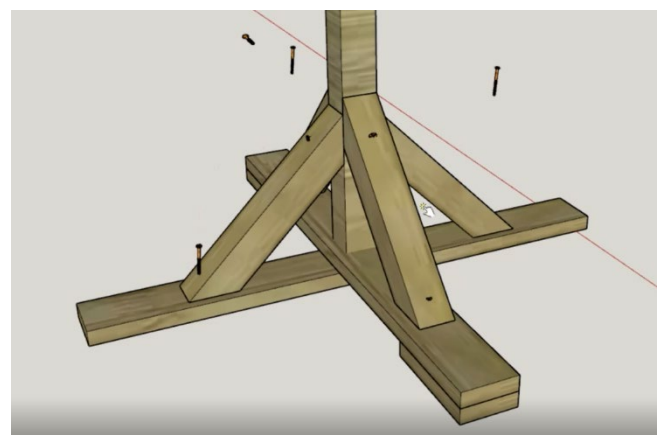

1. Position the base pieces, forming a cross at the centre as shown, ensuring the piece with the foot blocks is positioned above. Screw together through the underside using 4 x 35mm screws.

2. Position the bird table post onto the centre of the base and screw together through the underside of the base using 2 x 100mm screws

3. Position the 4 x angled supports onto the base, ensuring that they are flush to both the base and the post. Fix each support using 2 x 50mm screws, one through the base and one through the post in each support.

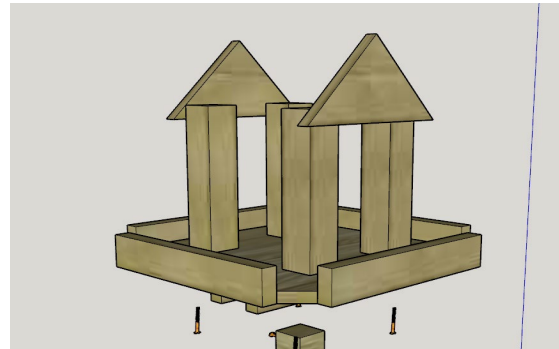

Part 2- House assembly

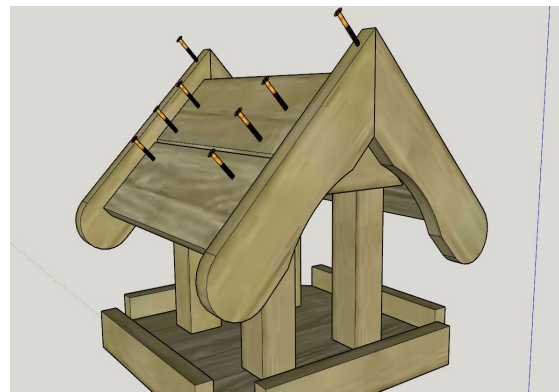

Parts:

- 1 x bird feeder tray.
- 2 x roof supports.
- 2 x roof panels.
- 1 x roof cap.

1. Position the roof supports onto the feeder tray (use a tape measure to check that they are evenly distributed if necessary) and screw from underneath the tray with 1 x 70 mm screw up into each of the legs of the roof supports.

2. Put the roof panels in place so the top points of the detailed fascia line up screw the fascia together using 1 x 60 mm screw in each. Then screw the roof panels in place (use a tape measure to check that they are evenly distributed if necessary).

3. Finally position the house on top of the stand post centrally and screw in place using 2 x 70mm screws as shown. And screw the cap strip on to the top of the roof join using 2 x 35mm screws.
