

Outdoor Rechargeable Solar Insect Killer Lamp

Thank you for purchasing our Outdoor Rechargeable Solar Insect Killer Lamp, a great solution to enjoy your garden and picnics without the annoyance of insects.

We hope you will be happy with your purchase.

IMPORTANT SAFETY INSTRUCTIONS

WARNING: Always take basic safety precautions when using any appliance.

There is the possible risk of injury or damage to property if used improperly or not as described in the instructions.

- The lamp will get hot. NEVER touch it
- Do not use the lamp near any heat source, steam or corrosive gas.
- Keep out of reach of children.
- Keep away from flammable materials such as solvents, paper, clothing etc.
- Do not touch voltage wire while item is in use. There is a risk of electrical shock.

OPERATING INSTRUCTIONS

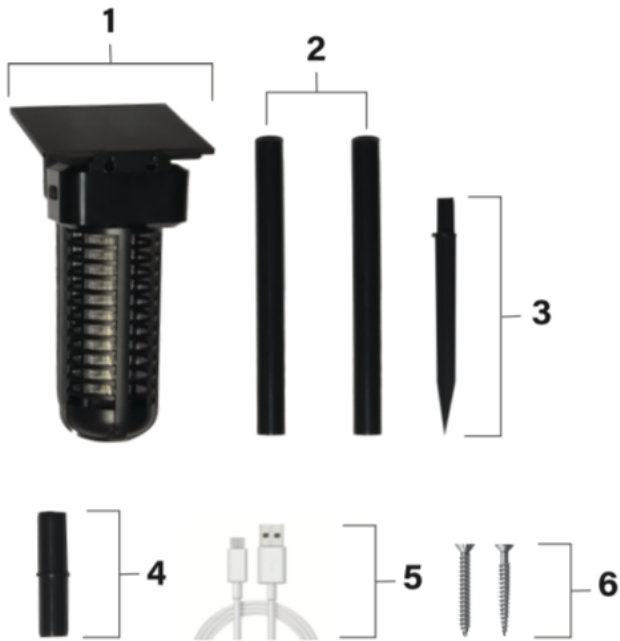

This device can be charged via USB (Type C cable provided) from a computer or power bank. If using an adaptor (not included), use a 5V model.

The product can also be charged by solar energy via the solar panel.

1. Switch On/Off via switch on side of item. Avoid handling product when activated.
2. The product can be attached to walls via screws (provided) or attached to stake and poles and be free standing.

For best results, use away from competing light sources.

PARTS LIST
